Dilbar Hussain

Computer Science Student

I am Dilbar Hussain currently enrolled in a four-year degree program at Sukkur IBA University. I have excellent hands-on practice in Java and Python and recently I have started my career work in Data Science. I aim to enhance my career and acquire skills by solving more real-life problems through effective coding and methodology. Moreover, I have good knowledge of basic building blocks of programming like data structures and algorithms, OOP, Data Base, and also in Networking.

WORK EXPERIENCE

- **Java developer at Fiverr**
  March 2021 – Current

  - Developed Projects with excellent ratings
  - Level 1 seller
  - Maintained 5-star ratings

- **Python projects developer**

- **Database expert**

AWARDS & ACHIEVEMENTS

- **HEC Scholarship**
  Awarded with 4 years of scholarship for a bachelor with a stipend.

- **Merit-baseded scholarship**
  Awarded with scholarship.

- **Workshop conducted**
  Github workshop GitHubducted in IBA kandhkot campus
  Block chain Workshop.
  Data Science Workshop.

TECHNICAL SKILLS

- **Java language Expert**
  Semester projects, tasks, online tutor, bug hunter.

- **Database Expert**
  Connected many applications with Databases and also use it in an efficient way.

- **Networking**
  Developed many Network projects using a Cisco packet tracer.

- **Tools**
  Github, Git, Postman, StarUML, heroku, netlify.
  VS Code, Android studio, Jupyter Notebook.

EDUCATION

- **BS/ Computer Science (2020 – Continue(Third year))**
  3.1002
  Java certificates from Udemy
  Python certificates from Coursera
  Networking certificates Great Learnings

PROJECTS

- **School Management System**
  This was my semester project in Java with Database.

- **Online Form using Java language**
  This project was on Data Structure as a semester project

- **Library Management System using .Net**
  This is also my semester project on C# using .Net for my university campus. (Under work)
